

Application Guidance

Background

Rosa, the UK Fund for Women and Girls, has opened round 2 of the Woman to Woman Fund.

With funds from the 'Tampon Tax', the programme sets out to support local grassroots women's organisations across the UK. Grants are being awarded over 3 rounds until March 2018. Round 3 of the Woman to Woman fund will open in November 2017.

Who can apply?

Grants are available for local, grassroots women's organisations run both by women and for women. Rosa defines 'women's sector organisations' as those which have a key objective of working with women and girls and where the majority of the organisation's beneficiaries are, and will always be, women and girls. Your work must fit into one of Rosa's four pillars:

- leadership and representation
- safety
- health and wellbeing
- economic justice

These pillars underpin the issues facing women and girls today. Read more about Rosa's four pillars [here](#).

Please note applicant organisations must have an income of under £100,000 per year (or less than two full time paid staff).

Priority areas

Rosa particularly welcomes proposals from women's organisations that:

- Address the critical needs of women and girls that miss out the most, including: marginalised populations, BME women, lesbian, bisexual or transgender women and girls, women and girls with disabilities, older women, homeless women, survivors of gender violence, women in prison and ex-offenders, and other underserved and disadvantaged groups of women.
- Operate in less economically resilient towns, cities and rural areas within the UK

In this round the panel is also particularly interested in supporting work under the 'Economic Justice' pillar. However it welcomes applications across all four pillars.

What you can apply for

Organisations can apply for grants of up to £25,000 to support a wide range of charitable work that benefits women: from building confidence and leadership skills, tackling harassment and violence, to training in financial literacy and increasing engagement in decision-making – and much more besides.

Rosa is particularly interested in funding work that increases impact and sustainability. Therefore grants can pay for **core costs** such as staff salaries, office rent and staff training; as well as project costs such as drop-in support services, mobilising volunteers and outreach. Please note, Rosa is committed to supporting voluntary sector organisations pay the living wage. Grants made towards staff costs will be paid a minimum of a Living Wage where possible.

As well as grants, Rosa will provide additional support that women's groups tell us they need, including mentoring, training and networking opportunities.

Note: We review the guidance after each round and criteria may change in future rounds.
